

KNIPEX Quality – Made in Germany

Capacity of  
0.08–16 mm<sup>2</sup>

## KNIPEX PreciStrip16

Automatically strips insulation – and thanks to additional zero correction, it also grips where automatic devices would otherwise fail

# KNIPEX PreciStrip16

Properly stripped away:  
with deft precision, strip everything from very fine to thick cables with stranded or solid conductors

- ▶ Simple, precise stripping of fine stranded and solid round cables with a wide capacity range from 0.08 to 16 mm<sup>2</sup> with only one pair of pliers
- ▶ Good grip provided by semi-circular grooved metal holding clamps and exact cut from parabolic stripping blade
- ▶ Fine adjustable zero correction of the blade setting to special material requirements, e.g. due to large temperature differences

- > With cable cutter for stranded wire from 0.08 to 16 mm<sup>2</sup>
- > With tether attachment point, suitable for KNIPEX Tethered Tools accessories
- > Inscription area for customisation
- > With adjustable length stop for precision work repeated accurately each time
- > Comfortable operation with ergonomic dual-component handle
- > Easily replaceable blade cassette

Parabolic blade separates the insulation first and then automatically pulls it back

Customisable using the inscription area

12 52 195

## How parabolic blades work

The parabolic bulging blade pair (red) extensively encloses and cuts the insulation and is thus suitable for many flexible materials

Semi-circular grooved holding clamp for better grip that holds practically any insulation material securely in place

With cable cutter on the top side for up to 16 mm<sup>2</sup>

For special requirements, such as particularly hard or soft insulation materials, optimum fine adjustments can be made using the adjustment wheel with its tactile locking positions
